To support our teams in Indonesia (Papua and Sulawesi) and in Madagascar we are looking for

Licensed Helicopter Mechanic (f/m) | with EASA Part 66 B1.3 licence

Job description:

You are the kind of person who is motivated by 'the trickier the better'. You like to work in a flexible environment, find helicopters fascinating and don't mind irregular hours and working outdoors? As a helicopter mechanic you are jointly responsible for the correct execution of planned and unplanned maintenance on our helicopters according to regulations.

Responsibilities:

- Daily preparation work on the helicopter
- Maintenance of our helicopter fleet
- Performing maintenance and repair work on the helicopter
- Troubleshooting on the helicopter
- Repair of various components
- Completion of the corresponding administrative tasks
- Maintenance of Ground Support Equipment

Requirements:

- The "vocation" comes before everything else (wife also needs this *vocation*)
- A personal relationship with Jesus Christ
- Basic attitude of satisfaction and gratitude
- English is a prerequisite
- Language skills from the country of assignment (e.g. Indonesia) or the willingness to acquire them
- Build up a personal circle of friends / supporters
- EASA Part.66 B1.3 License or FAA A&P License
- Experience as helicopter mechanic (3 - 4 years), type rating AS350 required
- Cross Cultural Training / Screening (at the expense of the candidate US\$ 350.--)
- Tropical medical certification

In addition, you possess good basic computer skills. Your character traits should include team player, a sense of order, reliability, flexibility, a sense of responsibility and the ability to work under pressure.
